10 February 1983

MEMORANDUM FOR: Deputy Director for Administration

FROM: [   ]   STAT
                  Director of Data Processing

SUBJECT: ODP Report for Week Ending 11 February 1983

1. Supercomputers

[   ]Chief, Planning and Policy Staff,   STAT
Intelligence Community Staff, forwarded to CIA a set of questions
on Agency supercomputer use and Government policy to encourage
domestic development of supercomputers. The questions were
developed by a Government task force on supercomputers, chaired
by the Office of Science and Technology Policy. [   ] is   STAT
the Intelligence Community representative on the task force. ODP
was tasked by the Executive Secretariat to prepare a coordinated
Agency response. The reply emphasized the lack of concrete
Agency supercomputer acquisition plans at this time and Agency
security concerns about the potential lack of domestic
supercomputer sources.

2. SAFE Early Capability

The first of two DIA Early Capability processors was
delivered on 8 February and the second was delivered on
9 February. Both processors will be installed by 11 February.

3. SAFE Integrated Capabilities

On 1 February, the Contract Review Board/OL approved the
D/ODP's recommendation that Geodynamics Corporation be awarded
the SAFE Quality Assurance Contract.

FOR OFFICIAL USE ONLY - NO CONTRACT

4. Significant Events During Coming Week

The SAFE Integrated Capabilities System Design Review (SDR) will be held on 14-16 February at the TRW facility at Tysons Corner. The number of people who wished to attend substantially exceeded the capacity of the conference room. As a result, several organizations in DIA and CIA were asked to cut back the number of representatives they had intended to send. This list was passed to TRW Security on 10 February.
